

I oppose loosening the rules designed to promote and protect diversity of media ownership. These rules were adopted to ensure that the public would receive a diverse range of viewpoints from the media, and not simply the opinions of a handful of media conglomerates.

The airwaves are public domain, and should not be used solely for private use. Policies such as the ones Chairman Powell are supporting only serve private interests and do nothing in support of the people. A diverse range of information is required in a democratic society. Unfortunately, the FCC is leading the American airwaves towards totalitarianism, and it must stop.
